September 3, 1982

Ms. Denise Dragoo
Fabian and Clendenin
Continental Bank Building
200 South Main Street
Salt Lake City, Utah 84101

Dear Ms. Dragoo:

This office has reviewed the materials attached to Mr. R. Glenn Vawter's letter of August 11, 1982. This office only has two concerns that need to be answered prior to approval. They are:

1. The Notice of Intent to Mine indicated that releases would be made from the structures in accordance with the National Environmental Protection Agency's standards. No details were given as to the structure through which releases would be made. I would request this information.
2. Emergency spills are indicated for both ponds. We would request drawings or sketches of these, so that we will better understand the project.

Upon submittal and review of the above mentioned data, we contemplate issuing approval subject to the approval of other involved agencies. If you have any questions, please feel free to contact me or Bob Morgan of my staff.

Sincerely,

Dee C. Hansen, P.E.
State Engineer
